EDUCATION

Bachelor of Technology in Computing

Nanyang Technological University
Expected Grad 2028

Diploma In Mechatronics

Temasek Polytechnic, 2015 – 2018

Technical GCE 'O' & 'N' Levels

Loyang Secondary School, 2011 – 2014

AWARDS

HOME TEAM DIPLOMA SPONSORSHIP
RECIPIENT

CERTIFICATIONS

Advanced Specialist Certificate
in Full Stack Development (NTU)

SKILLS & COMPETENCIES

Cybersecurity & Risk

Risk Assessment, Incident Response, IT
Governance, Compliance

Operations Management:

Security Operations, Crisis
Management, Business Continuity

Technical Familiarity:

Python, MERN Architecture, SIEM
(Splunk), Microsoft Power Query,
Digital Systems

Leadership & Strategy:

Stakeholder Management, Process
Improvement, Training & Mentorship

PROFESSIONAL EXPERIENCE

Operations Manager | June 2025 – Present

Health Sciences Authority, Tobacco Regulations Branch (HSA)

- Coordinated multi-stakeholder enforcement and regulatory operations, ensuring activities were executed in alignment with compliance, regulatory, and operational requirements.
- Supported audit and compliance readiness by maintaining accurate operational records, documentation baselines, and reporting visibility for regulatory and internal review purposes.
- Managed incident reporting and escalation coordination to ensure timely response, accurate documentation, and cross-team situational awareness.
- Led process improvement and digital workflow initiatives to improve operational visibility, data governance, and reporting efficiency across enforcement operations.

Digital Operations & Solution Specialist | Jun 2024 – Apr 2025

Shipco Transport

- Supported deployment and testing of M365 cloud-integrated automation workflows using Power Automate and SharePoint, improving collaboration, service visibility, and data accessibility.
- Applied cloud service model concepts to support workflow optimisation, digital transformation initiatives, and system migration planning.
- Streamlined operations by automating manual workflows using Excel VBA and Power Automate, reducing repetitive processing and improving operational reliability.
- Designed and demonstrated digital workflow solutions, including web-based automation tools, to replace manual processes and improve user experience.
- Partnered with cross-functional stakeholders to identify operational gaps, gather requirements, and deliver practical IT solutions aligned with business and service needs.

Security Operations & Incident Management | Dec 2020 – May 2024

Singapore Police Force, Special Operations Command

- Oversaw daily operational security readiness for Special Operations Command, ensuring deployment preparedness, physical security governance, and adherence to strict operational and compliance standards.
- Conducted structured risk assessments for high-profile national events, providing risk insights and operational deployment recommendations to senior leadership to support threat mitigation.
- Coordinated multi-division and inter-agency incident response operations for high-risk cases, ensuring rapid mobilisation of resources and execution.
- Supported incident reporting, operational documentation, and post-incident review processes to strengthen operational readiness & risk visibility,
