PROFESSIONAL EXPERIENCE

Client Success Manager | Mar 2026 – Present Ensign Infosecurity

- Manage cybersecurity service delivery and customer success activities for enterprise clients, supporting engagement coordination, issue tracking, reporting, and service improvement discussions.
- Work closely with SOC, MDR, threat analysts, engineers, and client security teams to coordinate incident follow-ups, escalations, service requests, and operational updates.
- Support client reporting and security operations reviews using platforms and workflows involving SIEM, XSOAR, Splunk, CrowdStrike, and managed security services.
- Drive process improvement and reporting automation using Python, Excel, Power Query, and AI-assisted workflows to improve operational visibility, efficiency, and stakeholder communication

Operations Manager | June 2025 – Feb 2026 Health Sciences Authority, Tobacco Regulations Branch (HSA)

- Coordinated multi-stakeholder enforcement and regulatory operations, ensuring activities were executed in alignment with compliance, regulatory, and operational requirements.
- Maintained operational records, reporting baselines, and documentation to support audit readiness, internal reviews, and management visibility.
- Managed incident reporting, escalation coordination, and process improvement initiatives to strengthen operational efficiency and situational awareness.

Digital Operations & Solution Specialist | Jun 2024 – Mar 2025 Shipco Transport

- Coordinated multi-stakeholder enforcement and regulatory operations, ensuring activities were executed in alignment with compliance, regulatory, and operational requirements.
- Maintained operational records, reporting baselines, and documentation to support audit readiness, internal reviews, and management visibility.
- Managed incident reporting, escalation coordination, and process improvement initiatives to strengthen operational efficiency and situational awareness.

Security Operations & Incident Management | Dec 2020 – May 2024 Singapore Police Force, Special Operations Command

- Oversaw daily operational security readiness, deployment preparedness, physical security governance, and compliance with strict operational standards.
- Conducted structured risk assessments for high-profile national events, providing operational recommendations to support threat mitigation.
- Coordinated multi-division incident response operations and post-incident documentation to strengthen operational readiness and risk visibility.
